					X	

<b>Global evaluation "REPORT"</b>					<b>C+</b>			(15/20)
-----------------------------------	--	--	--	--	-----------	--	--	---------

**IV - Additional comments of the jury /Supervisor**

Report : spellchecking your reports is a must, and many english mistakes could have been corrected. Also, thanking the institution (and supervisor) is of current use in western Europe. Good technical value otherwise. Only one point to improve : the way and order you introduce things (explain objectives and achievements clearly ; then, and only then ; enter into technical details)
